Sample Gantt charts

Do a Gantt chart. It shows tasks, dates, and how they relate to each other. it's a project planning method.

I used a screen grab for these pictures.

This is a simple Gantt chart made in Excel by colouring in cells:

Task	Week 1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31	32
Project start		V																														
Choose project				V																												
Complete project contract																																
Literature review							V																									
Requirements specification							V																									
First submission								V																								
Write app												V																				
Holiday															V																	
Write app																																
Test app																				V												
Write final report																																
Holiday																																
Write final report																													V			
Second submission																																
Viva																																

Key: V is move to next task

Research/writing:

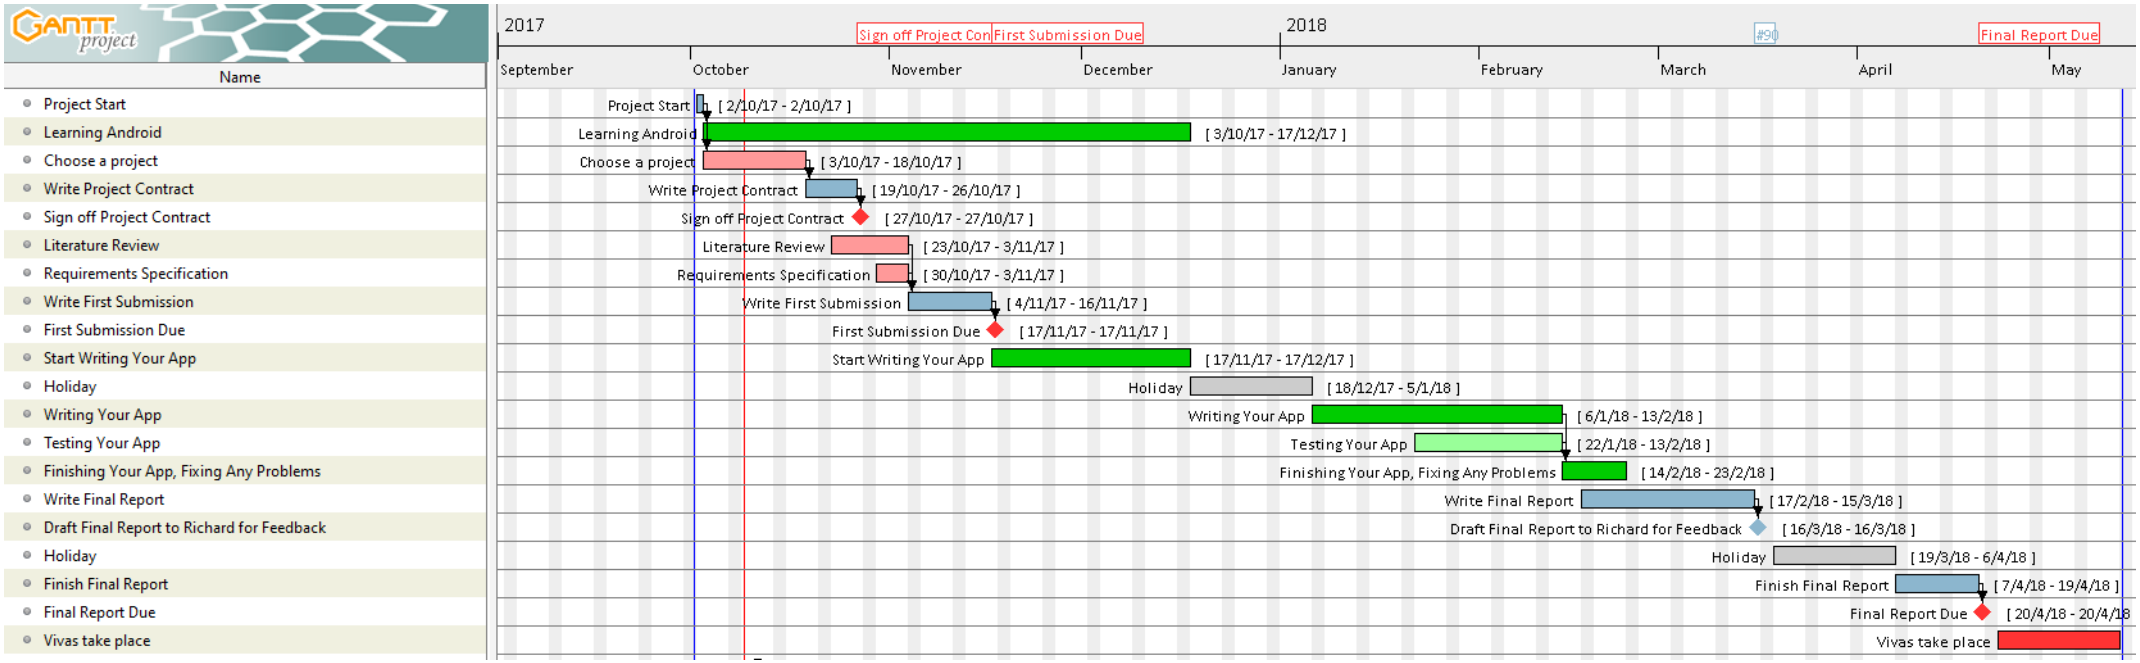
Writing app:

Deliverable:

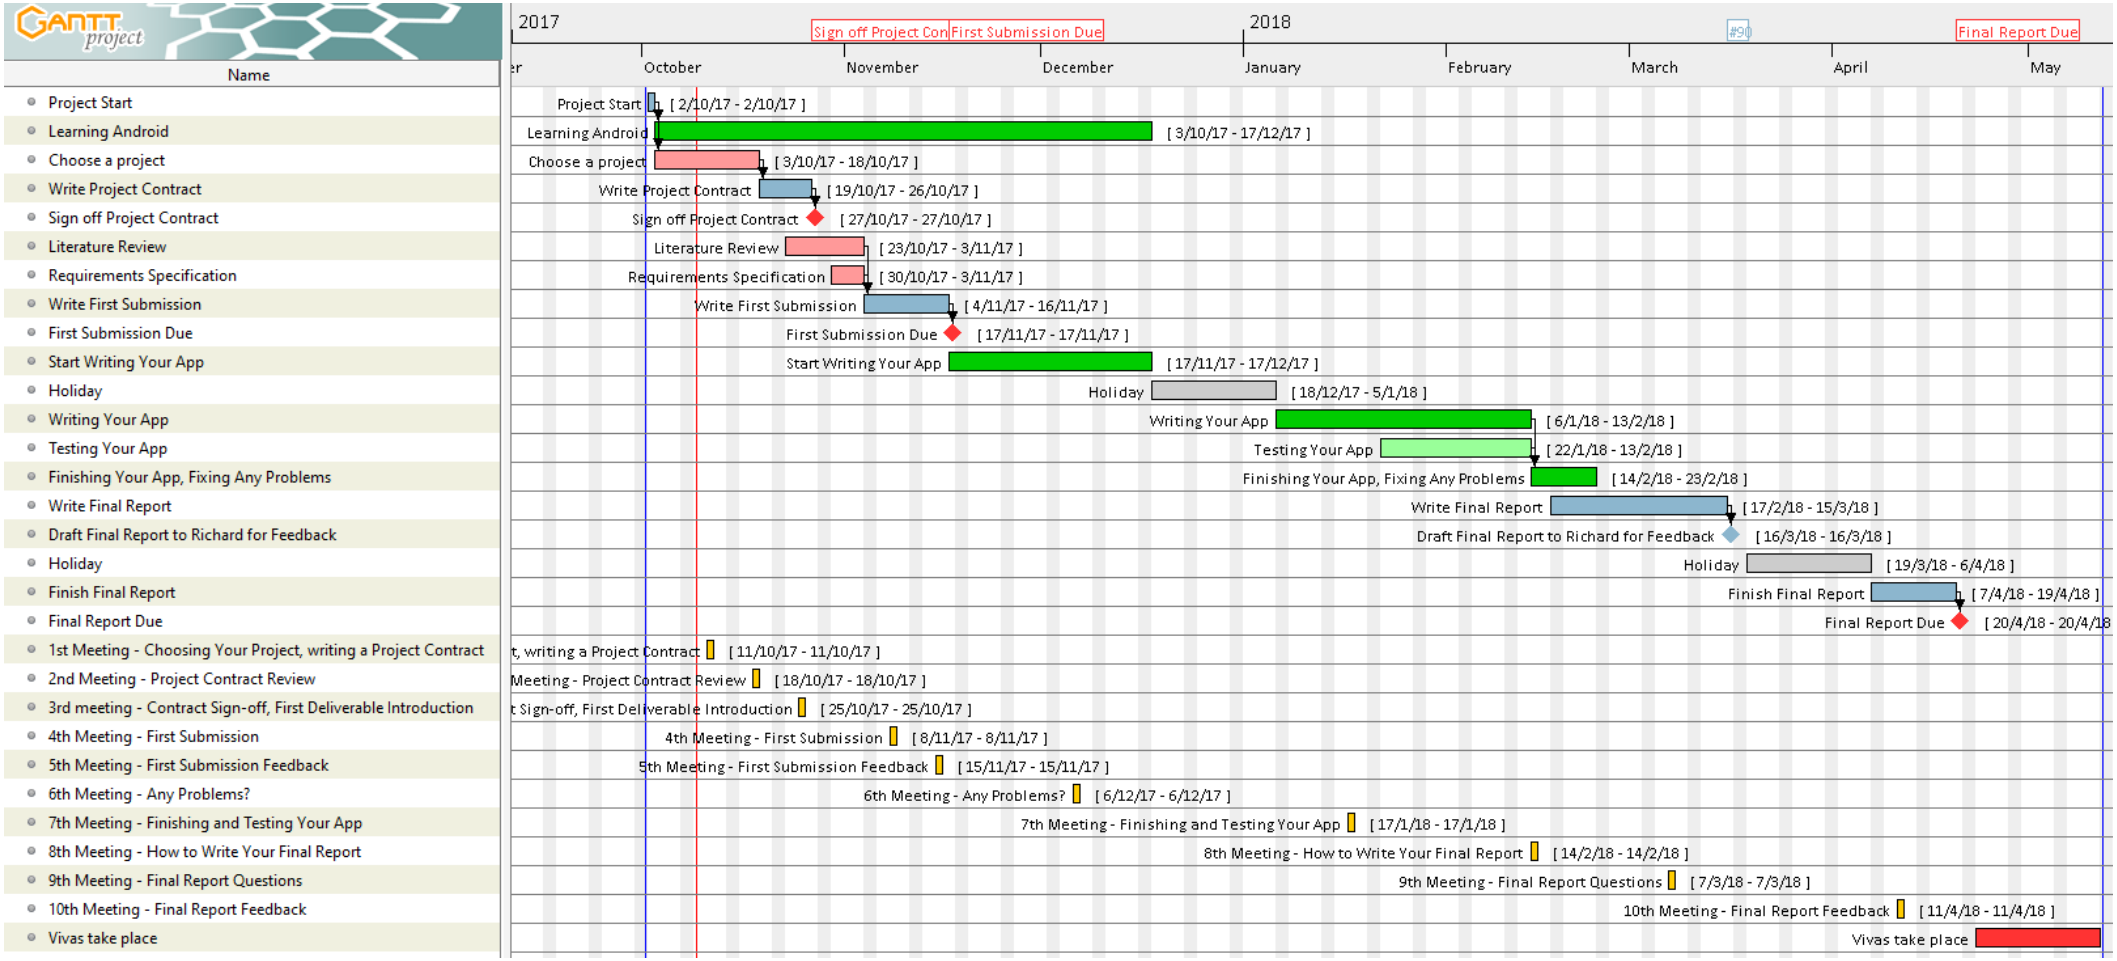
Holiday:

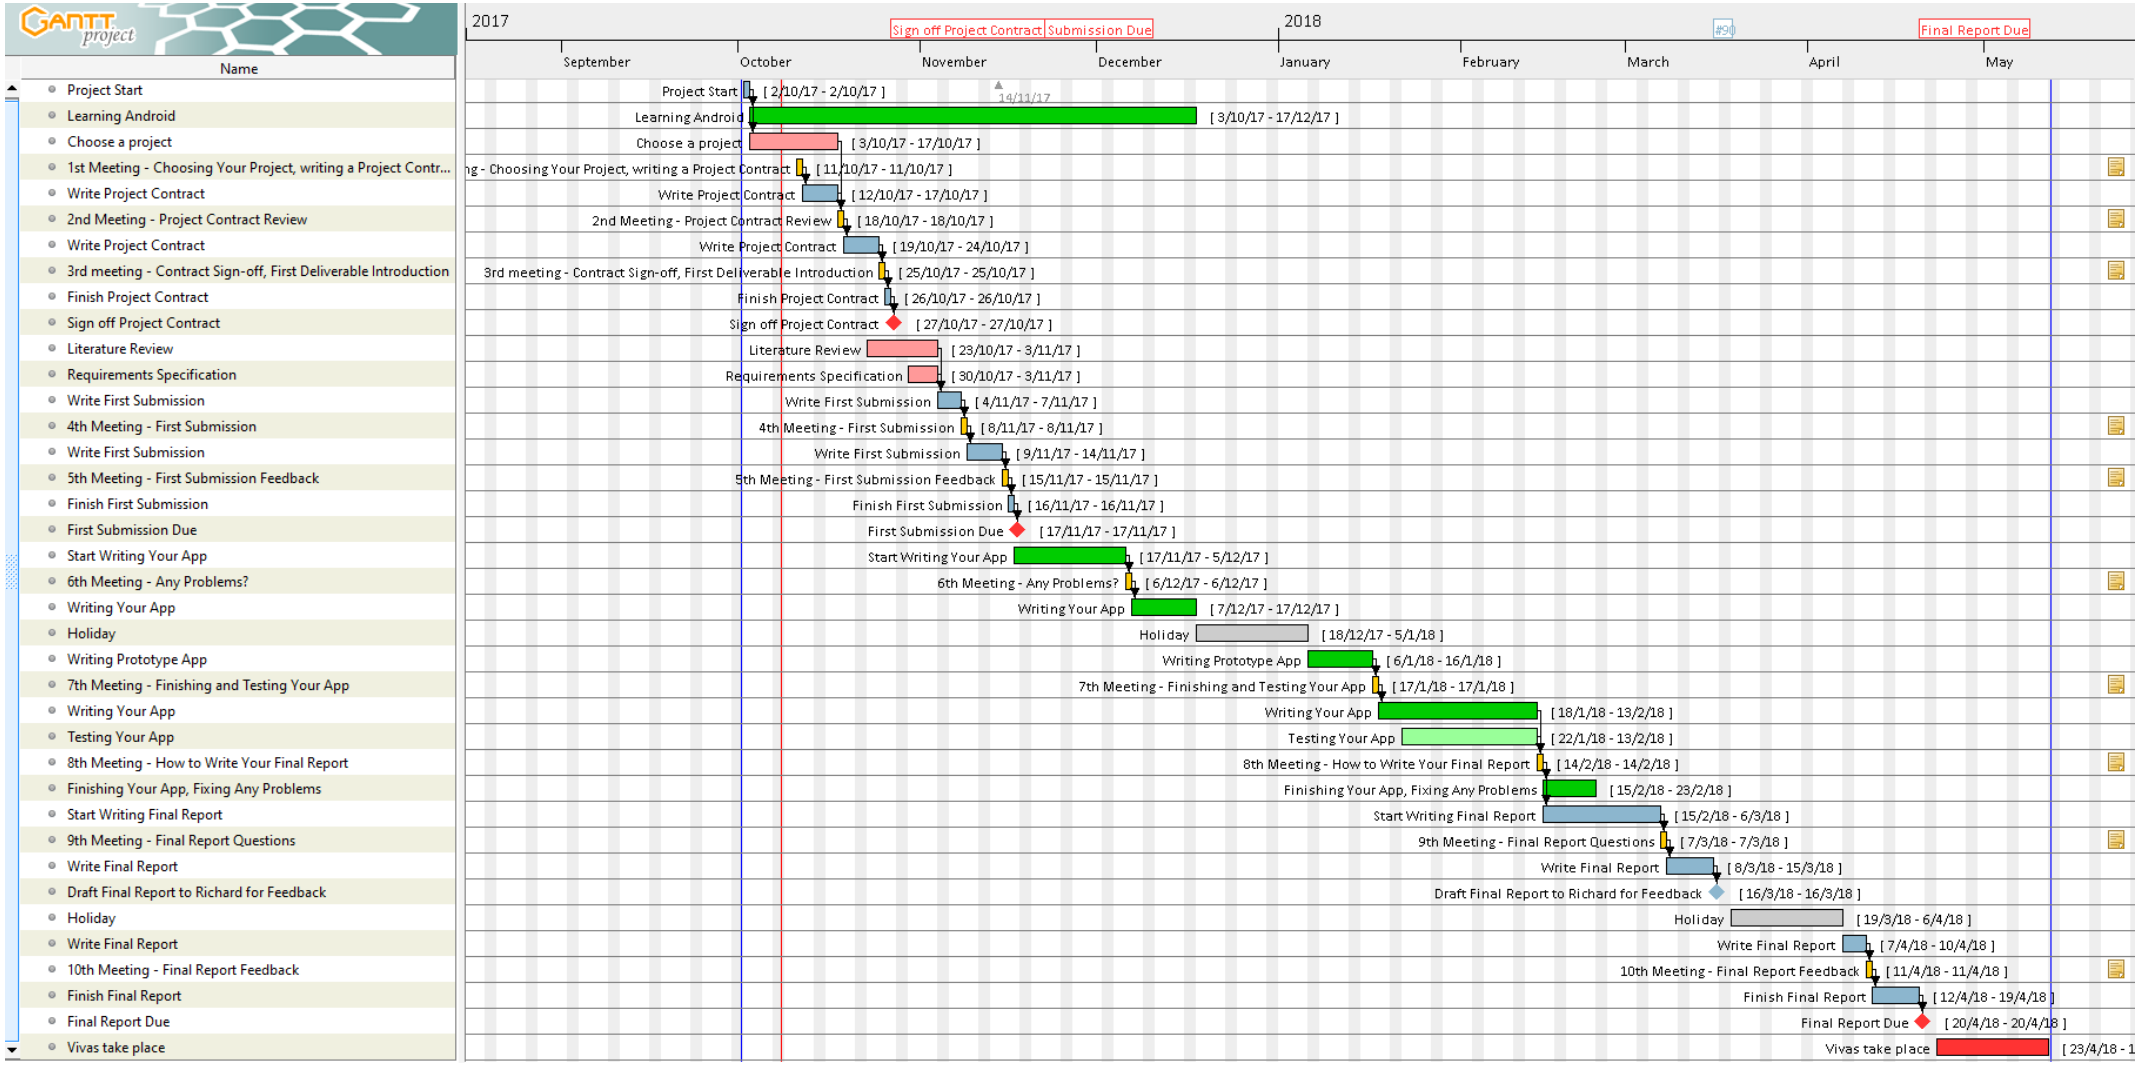
Free software can be found here: http://www.ganttproject.biz
There is a video tutorial here: https://www.youtube.com/watch?v=5rHCSa5ad34&feature=youtu.be

This is a simple chart made using the free and rather nice GanttProject software:



This is a more detailed chart made using the GanttProject software, it shows meetings as well as the main project flow:





This is a very detailed chart made using the GanttProject software:, it shows meetings integrated into the main project flow:
